PROFILE

Final-year BSc Information Technology student and junior full-stack developer focused on building secure, database-driven web applications. Experienced with React, JavaScript, PHP, MySQL, Supabase/PostgreSQL, and role-based authentication through academic and self-directed projects. Strong interest in clean back-end logic, relational database design, secure authentication, and practical deployment. Seeking a junior software/full-stack developer role where I can contribute to real products while continuing to grow technically.

TECHNICAL SKILLS

Languages: JavaScript, PHP, SQL, C++, HTML5, CSS3

Front-End: React, Vite, responsive UI, DOM manipulation

Back-End: PHP OOP, Node.js basics, API fundamentals, authentication, session management

Databases: MySQL, Supabase/PostgreSQL, relational schema design, CRUD operations

Security: bcrypt password hashing, SQL-injection prevention, row-level security, role-based access control

Cloud & Deployment: Vercel, Supabase, Supabase Edge Functions, AWS Cloud Foundations

Tools: Git, GitHub, VS Code, phpMyAdmin

Currently Strengthening: TypeScript, Laravel, AWS serverless development

PROJECTS

Student Events Platform | *React · Vite · Supabase · PostgreSQL · Vercel*

- Built and deployed a cross-campus event platform that allows students to suggest, vote on, and commit to campus events.
- Developed separate role-based interfaces for students and SRC/admin users, including event suggestions, voting, event management, feedback analytics, and student directory features.
- Designed the Supabase/PostgreSQL data structure and secured access using Supabase Auth and row-level security policies.
- Implemented an AI-assisted Supabase Edge Function to group similar student suggestions into poll-ready clusters.
- Deployed the application on Vercel with Supabase as the back-end platform.

Live: student-events-platform.vercel.app | Code: github.com/LinMhlaDoRh/Student-Events-Platform

Social Media Platform | *PHP · JavaScript · MySQL*

- Built a database-driven social platform with registration, login, user profiles, posts, direct messaging, password reset, and media uploads.
- Implemented secure authentication using bcrypt password hashing, session-based access control, and SQL-injection prevention.
- Designed a normalised MySQL schema for users, posts, messages, profiles, and uploaded media.
- Built a responsive front-end using HTML, CSS, and JavaScript.

Code: github.com/LinMhlaDoRh/Social-Platform

PHP Payment Processing Simulator | *PHP · OOP*

- Built an object-oriented PHP back-end simulator for credit card, PayPal, and cryptocurrency payment flows.
- Implemented fee calculation, fraud-detection rules, refund validation, transaction ID generation, and transaction history.
- Structured the code using separate classes for payment methods, transactions, validation, and processing logic.
- Demonstrates back-end business logic and separation of concerns without relying on a database.

Code: github.com/LinMhlaDoRh/PHP-Processing-System

Student Grade Management System / C++

- Built a console-based CRUD application for managing student records, grade assignment, search, filtering, and input validation.
- Practiced core programming concepts including control structures, functions, arrays/vectors, and basic data handling.
Code: github.com/LinMhlaDoRh/student-management-system

EDUCATION

BSc Information Technology in Software Development

Richfield Graduate Institute of Technology, Durban

Expected completion: 2026 | Expected graduation: 2027

CERTIFICATIONS

- **AWS Academy Cloud Foundations** | Amazon Web Services
- **AWS Cloud Quest: Serverless Developer** | Amazon Web Services
- **AWS Certified Developer – Associate** | In Progress
- **Network Essentials** | Cisco
- **JavaScript Essentials 1** | Cisco
- **AI Fundamentals with Capstone Project** | IBM

ADDITIONAL

- **Peer Mentor:** Volunteer mentor to first-year programming students at Richfield, helping explain programming concepts, debugging approaches, and problem-solving strategies across different learning levels.
- **Languages:** English, isiZulu
- **Portfolio:** linmhladorh.github.io
- References available on request.
